# SANITARY SYSTEMS

## Saniplus Small bore sanitary system

- Breaks down toilet waste from a shower, wash basin or W.C for pumping away through a small bore (22mm) pipe
- A powerful motor enables the unit to pump the waste and water up to 5m vertically, 100m horizontally or a lesser combination of both, where conventional large bore pipework is impractical
- Features a new case with sound reduction and integrated carbon filter
- Can be used with Whale pump option

code	product	Price
SH0411	Saniplus sanitary system	£585

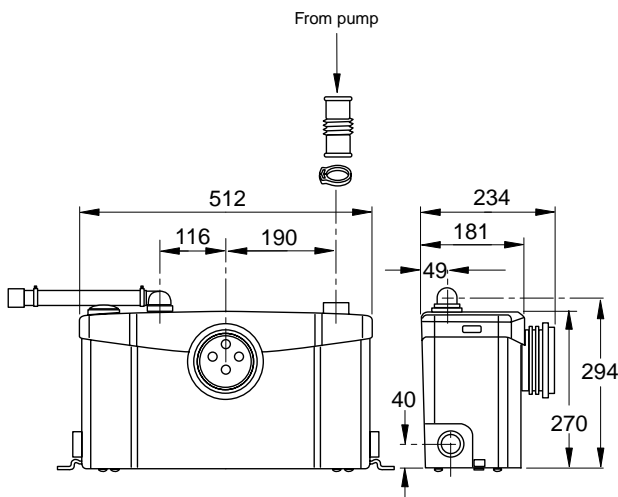

## Technical information

- Motor induction motor (no carbon brushes or gears to wear out). Tested over 30,000 cycles.
- Watts (Consumption) 400w
- Electrical Supply 220-240V 50Hz
- Flow rate at max head l/min 40 Horizontal Discharge 100 metres
- Vertical Discharge 5 metres
- Gravity fall on horizontal installations 1:100
- Discharge Pipe Diameter 22mm
- Materials Polypropylene, C.R.P., stainless steel, Neoprene Type of WC Pan (not included)
- Short spigot 100mm HO outlet (BS EN 33/37) Motor RPM 2800 RPM
- Normal Running Time WC 10–20 secs approx or as required, to discharge bath, shower etc
- Dimensions (vertical height is measured from floor level) 512W x 305 O/H x 200D (requires 210mm behind spigot)

Technote Designed to fit BS EN 33/37 WC pans.

As close coupled cistern dimensions vary, it may be necessary, with certain designs, to utilise a spacer between cistern and wall

## Saniplus small bore sanitary system (shown with Whale pump option)

### Saniplus small bore sanitary system with Whale pump

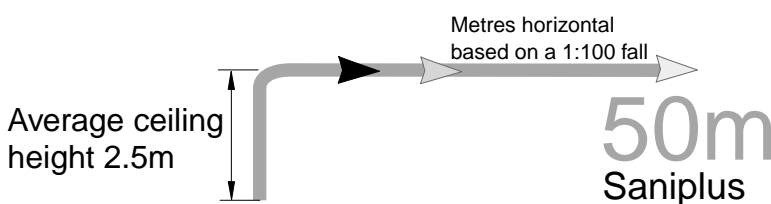

**Please contact the Technical Helpdesk on 01869 365500 if this option is required.**

Where the situation demands, or if the pipe run is greater than that specified for the Whale pump a Saniplus small bore sanitary system may be used. The discharge from the Whale pump must go into the top of the Saniplus small bore sanitary system.

**Do not use the bottom entries.**

It is preferable to have two separate discharge lines to waste and drainage when used in the same room as a Saniplus small bore sanitary system. Any failure of the Saniplus small bore sanitary system will not be detected by the Whale pump.

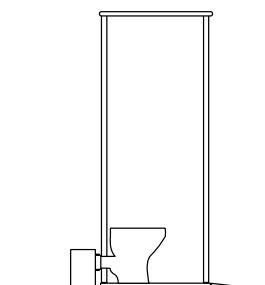

## Pumping distance illustration

NB: Vertical lift must precede horizontal run

Note: If you increase 'horizontal' pipe fall to full 1:40 gravity fall, then the horizontal distance can be increased to virtually any distance required (also increase pipe size)
