MHWMEHLUKEL	Wispa Mobile	Battery	High Lift	£1075

Note: A £50.00 delivery charge applies.

Wispa mobile Duo hoist (battery) Maximum Load 158kg (25 stones) (347lb)

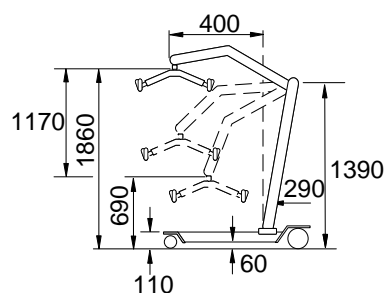

- Transforms easily from a high lift hoist to a transfer aid, to assist with activities of daily living in both clinical and domestic environments
- The Duo combines two important functions in one piece of equipment. When used as a transfer aid the Duo will raise a client, who has a degree of strength in their upper body and lower limbs, into a semi-standing position, facilitating transfers, adjustment of clothing and relief of pressure
- This makes it ideal for toileting use and enables clients to maintain a level of independence and dignity
- When used as a hoist the Duo shares the same extensive lifting range and number of lifts per charge as the Wispa High Lift Battery hoist

code	product	power	function	Price
MHWMEDHLUKEL	Wispa Mobile Duo	Battery	High Lift/Transfer aid	£1875

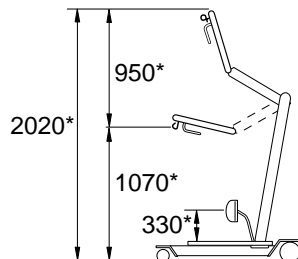

*Strop attachment included with Wispa Duo. Assembly Commissioning & Operation Instruction £50.00

Note: A £50.00 delivery charge applies.
