Safety standards and tests

Sample slings have been load tested in accordance with ISO 10535 (2006) Hoists for the transfer of disabled persons - Requirements and test methods and conform to the requirements of the standard. The composite sample of the material used in Wispa slings meets the flammability performance requirements of BS EN 1021-1:1994 for upholstered furniture.

Hoist and sling compatibility

Chiltern Invadex can supply a detailed statement on hoist and sling compatibility produced by the British Healthcare Trades Association (BHTA). A copy of the statement can be viewed at www.chilterninvadex.co.uk/useful_info.htm or by contacting the Chiltern Invadex Customer Service Office at sales@chilterninvadex.co.uk.
