

Ideal for wet floor installations and level access shower trays such as the popular Sandwell and Westdale ranges\*, the new rising butt hinge allows the door to open and glide smoothly and effortlessly across the floor or shower tray.

In three easy steps the door is lifted, rotated and then lowered to provide a seal in the closed position, ensuring simple operation for ambulant or shower chair users.

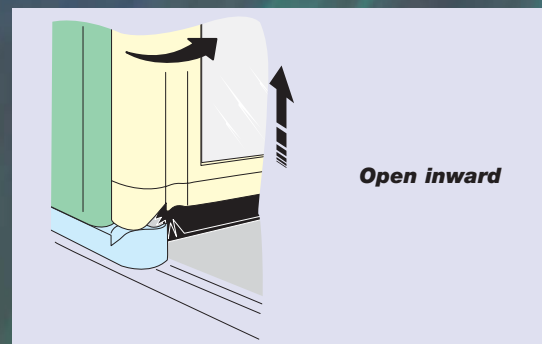

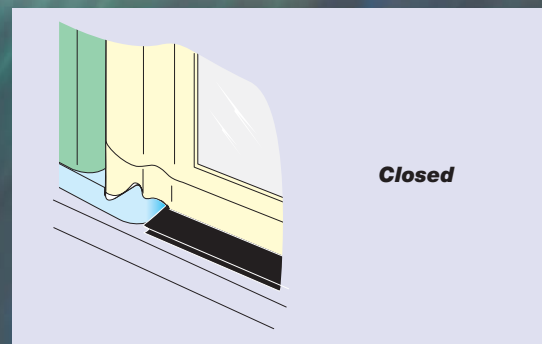

- Standard feature on Sandwell and Westdale 655/760 ranges at no additional cost
- Allows the doors to rotate 180 degrees – opening out or inwards for greater flexibility and user preference
- Ease of operation for independent showering
- Tough nylon construction ensures durable and long lasting finish
- Door rises 7mm allowing the enclosure to open without contact with the tray, helping to reduce friction and wear on door seals

\*fitted with tri-fold doors
