

New Tilt in Space Shower Chair

Following the successful introduction of our tilt in space shower chair in 2014, we have developed the range to include a 15" paediatric model.

The chair provides a tilting angle of between 5 and 30 degrees, controlled by twin gas rams for smooth and reliable operation.

For ease of use a single hand control lever is mounted on the rear of the chair.

Seat, armrest, footrest and headrest options, combined with a number of specialist accessories allow the chair to be individually customised to suit each user.

Features

-  Durable powder coated finish
-  15" standard seat width
-  12" standard seat depth
-  Flat padded, aperture and horseshoe seat options

 Optional mesh backrest fabric

 Large range of accessories including;

-  Side pads
-  Thoracic supports
-  Harnesses
-  Head supports
-  Foot trays

 Custom made chairs and accessories available

 Available in over 150 frame colour options included in standard price. Standard colour is white. (please contact us for a colour chart)
