Showering and Bathing Technical Specification

Shower Waste Pump

The versatile solution to waste water drainage

Building construction or plumbing design can present problems when deciding on the location of a shower tray. The Chiltern Invadex Waste Pump provides the solution. Its quiet, powerful design offers a versatile solution to waste water drainage.

For quick and simple electrical installation the Shower Waste Pump package includes a wiring block, which controls the pump, shower and extractor fan (where used).

Note: Maximum height from base of box to top of pipe 711mm (28") to minimum height 508mm (20") for maximum efficiency of the pump (with a suitable down gradient slope) allowing the shower tray to be sited almost anywhere.

- Simple installation.
- Quiet, powerful low voltage pump (12v).
- Power supply included (wiring block). Includes pre-wired pull switch with connection for electric shower.
- Audible alarm to indicate blockages.
- Pump lid snaps on and is easily removed for routine cleaning and maintenance.
- Quick and simple connection.
- Case constructed from white flame retardant ABS.

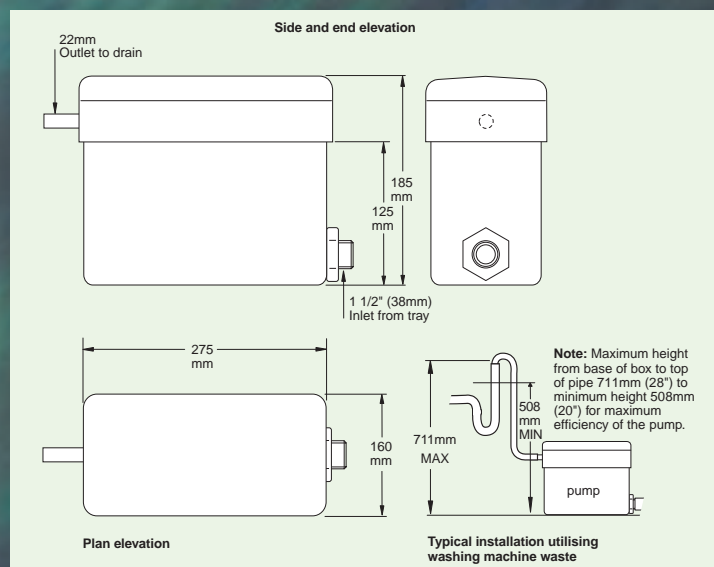

- Flexi-pipe supplied (38mm - 1½") for feed into pump box. Feed outlet from box is 22mm (7/8").
- Maximum 15 litres/min drainage (dependent on the type of shower tray).

Shower compatibility

- Suitable for use with mixer shower, electric shower heaters or some pumped showers (dependent on the type of shower tray).

Siting of the pump

- The pump sits on the floor if used with an easy access (surface mounted) shower tray or is recessed into the floor (125mm) for a level access shower tray.
- All installations must only be carried out by qualified personnel.

Note: Maximum height from base of box to top of pipe 711mm (28") to minimum height 508mm (20") for maximum efficiency of the pump.
