Wet Floor Kit ,Corner Cubicle & Cardale Mk2 and replacement GRP bases for cubicle models 75, 90,101 & 120.

These pictures show the waste pump as used in the Wet Floor Kit and Corner Cubicle. Float switch at 90 deg.

Available in two voltages, 24 and 12. Check voltage on wiring block label if unsure.

Part No.
SHPU041* - Waste pump 24 volt (Pump has Red base moulding)
SHPU032* - Waste pump 12 volt (Pump has Blue base moulding)

* Important Note

Due to discontinuation of the heart shaped plastic connector (a), all Chiltern Invadex pumps are now provided with a round metal connection point (b). If the pump currently in-situ has the connection shown in picture (a), a re-wire kit must also be ordered: 12V re-wire kit code: SHPU004/12V, the 24V re-wire kit code: SHPU004
